

*PHOTOVOICE: Sharing your voice through photography
Opportunity for young people in middle and high school*

Let Out Your Creativity. Adapting to Change: A Photovoice Project

PhotoVoice gives you the opportunity to be creative, using photography to share your personal story and experience during COVID. You will learn basic photography skills, photograph manipulation, and storytelling techniques through still photography. The Essex County Asset Builder Network is hosting this project across the region. NYS is running our section through The Outlet!

Participants will have an opportunity to share their work with other youth from our surrounding towns and the community more broadly. Class will be run by Ryan Gregory, a professional Boston based photographer with personal ties to the North Shore. [@rlgphotog on Instagram](#)

Classes will run from 3:30- 4:30PM on Wednesday afternoons via Zoom on Feb 24, March 3, March 10 and March 17th. There is an option for an in person, masked and social distanced photography session around town if participants are interested. The program is free! Bring a friend and sign up today!

Register with NYS or attend the Informational Meeting on Feb 10th, 7pm- Photo Voice Meeting (**Outlet Zoom Meeting Room**)
